* Estimated by Illinois State Geological Survey.

** Estimated by Illinois State Geological Survey from Oil and Gas Journal Report.

1/ Production figures based on information furnished by oil companies and pipe line companies.

2/ Includes Devonian production at Sandoval and Bartelso.

3/ From the U. S. Bureau of Mines, except for the two latest months.

o Includes only oil and gas producers and dry holes.

a/ Figures in parentheses refer to number of producing wells included in total which had previously been completed as dry holes.

ECONOMIC STATEMENTMineral Economics Section

Crude oil from Illinois is marketed in substantial quantities in both the Central Refining District and in the western part of the Appalachian Refining District (District #2). The table shows the ratio of production in Illinois to runs-to-stills and includes both the Central Refining District and District No. 2 of the Appalachian Refining District.

* Estimated by Illinois State Geological Survey.

** Estimated by Illinois State Geological Survey from Oil and Gas Journal Report.

1/ Production figures based on information furnished by oil companies and pipe line companies.

2/ Includes Devonian production at Sandoval and Bartelso.

3/ From the U. S. Bureau of Mines, except for the three latest months.

o Includes only oil and gas producers and dry holes.

a/ Figures in parentheses refer to number of producing wells included in total which had previously been completed as dry holes.

ECONOMIC STATEMENTMineral Economics Section

Crude oil from Illinois is marketed in substantial quantities in both the Central Refining District and in the western part of the Appalachian Refining District (District #2). The table shows the ratio of production in Illinois to runs-to-stills and includes both the Central Refining District and District No. 2 of the Appalachian Refining District.

^{1/} Production figures based on information furnished by oil companies and pipe line companies.^{2/} Includes Devonian production at Sandoval and Bartelso.^{3/} From the U. S. Bureau of Mines, except for the two latest months.^o Includes only oil and gas producers and dry holes.^{a/} Figures in parentheses refer to number of producing wells included in total which had previously been completed as dry holes.

ECONOMIC STATEMENTMineral Economics Section

Crude oil from Illinois is marketed in substantial quantities in both the Central Refining District and in the western part of the Appalachian Refining District (District #2). The table shows the ratio of production in Illinois to runs-to-stills and includes both the Central Refining District and District No. 2 of the Appalachian Refining District.

* Estimated by Illinois State Geological Survey.

** Estimated by Illinois State Geological Survey from Oil and Gas Journal Report.

1/ Production figures based on information furnished by oil companies and pipe line companies.

2/ Includes Devonian production at Sandoval and Bartelso.

3/ From the U. S. Bureau of Mines, except for the months since December 1950.

^o Includes only oil and gas producers and dry holes.

a/ Figures in parentheses refer to number of producing wells included in total which had previously been completed as dry holes.

ECONOMIC STATEMENTMineral Economics Section

Crude oil from Illinois is marketed in substantial quantities in both the Central Refining District and in the western part of the Appalachian Refining District (District #2). The table shows the ratio of production in Illinois to runs-to-stills and includes both the Central Refining District and District No. 2 of the Appalachian Refining District.

* Oil and Gas Journal figures not available because of refinery shutdowns.

^{1/} Production figures based on information furnished by oil companies and pipe line companies.^{2/} Includes Devonian production at Sandoval and Bartelso.^{3/} From the U. S. Bureau of Mines, except for the months since December 1950.^o Includes only oil and gas producers and dry holes.^{a/} Figures in parentheses refer to number of producing wells included in total which had previously been completed as dry holes.

ECONOMIC STATEMENTMineral Economics Section

Crude oil from Illinois is marketed in substantial quantities in both the Central Refining District and in the western part of the Appalachian Refining District (District #2). The table shows the ratio of production in Illinois to runs-to-stills and includes both the Central Refining District and District No. 2 of the Appalachian Refining District.

1/ Production figures based on information furnished by oil companies and pipe line companies.

2/ Includes Devonian production at Sandoval and Bartelso.

3/ From the U. S. Bureau of Mines, except for the months since December 1950.

o Includes only oil and gas producers and dry holes.

a/ Figures in parentheses refer to number of producing wells included in total which had previously been completed as dry holes.

* Estimated by Illinois State Geological Survey.

** Estimated by Illinois State Geological Survey from Oil and Gas Journal Report.

ECONOMIC STATEMENT
Mineral Economics Section

Crude oil from Illinois is marketed in substantial quantities in both the Central Refining District and in the western part of the Appalachian Refining District (District #2). The table shows the ratio of production in Illinois to runs-to-still and includes both the Central Refining District and District No. 2 of the Appalachian Refining District.

* Estimated by Illinois State Geological Survey.

** Estimated by Illinois State Geological Survey from Oil and Gas Journal Report.

1/ Production figures based on information furnished by oil companies and pipe line companies.

2/ Includes Devonian production at Sandoval and Bartelso.

3/ From the U. S. Bureau of Mines, except for the months since December 1950.

o Includes only oil and gas producers and dry holes.

a/ Figures in parentheses refer to number of producing wells included in total which had previously been completed as dry holes.

ECONOMIC STATEMENT
Mineral Economics Section

Crude oil from Illinois is marketed in substantial quantities in both the Central Refining District and in the western part of the Appalachian Refining District (District #2). The table shows the ratio of production in Illinois to runs-to-stills and includes both the Central Refining District and District No. 2 of the Appalachian Refining District.

* Estimated by Illinois State Geological Survey.

** Estimated by Illinois State Geological Survey from Oil and Gas Journal Report.

1/ Production figures based on information furnished by oil companies and pipe line companies.

2/ Includes Devonian production at Sandoval and Bartelso.

3/ From the U. S. Bureau of Mines, except for the months since December 1950.

o Includes only oil and gas producers and dry holes.

a/ Figures in parentheses refer to number of producing wells included in total which had previously been completed as dry holes.

ECONOMIC STATEMENTMineral Economics Section

Crude oil from Illinois is marketed in substantial quantities in both the Central Refining District and in the western part of the Appalachian Refining District (District #2). The table shows the ratio of production in Illinois to runs-to-stills and includes both the Central Refining District and District No. 2 of the Appalachian Refining District.

** Estimated by Illinois State Geological Survey from Oil and Gas Journal Report.

1/ Production figures based on information furnished by oil companies and pipe line companies.2/ Includes Devonian production at Sandoval and Bartelso.3/ From the U. S. Bureau of Mines, except for the months since December 1950.

o Includes only oil and gas producers and dry holes.

a/ Figures in parentheses refer to number of producing wells included in total which had previously been completed as dry holes.

ECONOMIC STATEMENT
Mineral Economics Section

Crude oil from Illinois is marketed in substantial quantities in both the Central Refining District and in the western part of the Appalachian Refining District (District #2). The table shows the ratio of production in Illinois to runs-to-stills and includes both the Central Refining District and District No. 2 of the Appalachian Refining District.

* Estimated by Illinois State Geological Survey.

** Estimated by Illinois State Geological Survey from Oil and Gas Journal Report.

1/ Production figures based on information furnished by oil companies and pipe line companies.

2/ Includes Devonian production at Sandoval and Bartelso.

3/ From the U. S. Bureau of Mines, except for the months since December 1950.

o Includes only oil and gas producers and dry holes.

a/ Figures in parentheses refer to number of producing wells included in total which had previously been completed as dry holes.

ECONOMIC STATEMENTMineral Economics Section

Crude oil from Illinois is marketed in substantial quantities in both the Central Refining District and in the western part of the Appalachian Refining District (District #2). The table shows the ratio of production in Illinois to runs-to-stills and includes both the Central Refining District and District No. 2 of the Appalachian Refining District.

** Estimated by Illinois State Geological Survey from Oil and Gas Journal Report.

1/ Production figures based on information furnished by oil companies and pipe line companies.

2/ Includes Devonian production at Sandoval and Bartelso.

3/ From the U. S. Bureau of Mines, except for the months since December 1950.

o Includes only oil and gas producers and dry holes.

a/ Figures in parentheses refer to number of producing wells included in total which had previously been completed as dry holes.

ECONOMIC STATEMENT
Mineral Economics Section

Crude oil from Illinois is marketed in substantial quantities in both the Central Refining District and in the western part of the Appalachian Refining District (District #2). The table shows the ratio of production in Illinois to runs-to-stills and includes both the Central Refining District and District No. 2 of the Appalachian Refining District.

ECONOMIC STATEMENTMineral Economics Section

Crude oil from Illinois is marketed in substantial quantities in both the Central Refining District and in the western part of the Appalachian Refining District (District #2). The table shows the ratio of production in Illinois to runs-to-stills and includes both the Central Refining District and District No. 2 of the Appalachian Refining District.
